### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ronald T. Sia on March 11, 2009.

2. The application has been amended as follows:

#### **In the claims:**

2.1. In claim 1, lines 29-33 (last five lines) have been replaced with the following:  
--an anti-microbial active which is the same in the laundry detergent composition and the fabric treatment composition, and wherein the perfume and the anti-microbial active are present at the same level in the laundry detergent composition and the fabric treatment composition.--

(support is found on page 15, lines 17-21 and page 17, lines 3-6)

2.2. In claim 40, line 1, "claim 39" has been replaced with --claim 1--.

2.3. In claim 41, line 1, "claim 39" has been replaced with --claim 1--.

2.4. Claims 36, 39 and 42 have been cancelled.

#### **In the specification:**

2.1. On page 7, line 18, the phrase "1998, and in U.S. Patent Application numbers" has been replaced with --1998.--

2.2. On page 7, lines 19-22 have been deleted.

2.4. On page 10, line 19, the phrase "U.S. Patent Application No. 09/227728 to Smith, et al. filed on August 24, 1999;" has been deleted.

### **STATEMENT OF REASONS FOR ALLOWANCE**

3. The following is an examiner's statement of reasons for allowance:

The claims in their present amended forms have overcome the prior art of record, including the newly found art to Curry (US Patent No. 3,890,242) because none of them teaches, discloses or suggests the kit for a fabric article consisting of the recited components, in particular wherein the coordinated elements, i.e., the perfume and the anti-microbial active, are the same and are present at the same level in the laundry detergent composition and the fabric treatment composition. Even though Vinson, Trinh '933 or Trinh '378 teaches similar perfume compositions, and even though Curry teaches antimicrobial compounds which are added to granular built synthetic detergent composition (see col. 13, line 56 to col. 14, line 6) or fabric softening compositions (see col. 18, lines 5-22), there is insufficient motivation, direction or guidance in combining the laundry detergent compositions, fabric conditioning or dryer sheet compositions in a kit or a dispensing system like that of Cheek wherein the perfume and antimicrobial active are the same and are present at the same level in the laundry detergent composition and the fabric conditioning or dryer sheet.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 1796

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lorna M. Douyon whose telephone number is 571-272-1313. The examiner can normally be reached on Mondays-Fridays 8:00AM-4:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Harold Pyon can be reached on 571-272-1498. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
